KRYPTOSPHERE PITCHATHON | APRIL 2026

HOLD/LINE

Invest with conviction.
Not with emotion.

The psychological support layer for crypto holders

Track: 50Partners Web3 — Coup de Coeur

The Problem

80%

Of crypto holders are passive investors.

They hold, they doubt, they panic.

Crypto markets are 24/7

Stress never stops

The Problem

80%

Of crypto holders are passive investors.

They hold, they doubt, they panic.

Red charts trigger panic selling

Crypto markets are 24/7 — stress never stops

News amplifies emotions

FUD, FOMO, doom-scrolling every day

The Problem

80%

Of crypto holders are passive investors.

They hold, they doubt, they panic.

Red charts trigger panic selling

Crypto markets are 24/7 — stress never stops

News amplifies emotions

FUD, FOMO, doom-scrolling every day

Original conviction evaporates

You forget WHY you invested

Who is this for?

Market size

420M+

Worldwide crypto holders

The Persona

- Long-term crypto investor (DCA, hold)
- Does NOT trade actively
- 80% don't trade — they hold and doubt
- Sensitive to news, charts, macro
- Regularly doubts their positions
- Zero tools to rationalize emotions
- Zero direct competitors

The Solution

HOLD/LINE

Write your thesis

Describe why you invest in natural language. AI structures it into clear, testable hypotheses.

"I invest in ETH because L2s will absorb global tx volume by 2028."

AI monitors weekly

Every week, AI analyzes news, macro data, and on-chain metrics. Scores each hypothesis 0-100.

"L2 adoption: 78% | Cost reduction: 92% | Timeline: 45%"

Community conviction

Holders share convictions anonymously. See what holds and what shakes across the community.

"67% of ETH holders see their thesis holding."

HOW IT WORKS

USER PATH

1

Sign in

Simple login (Google, email, wallet).

World ID verifies uniqueness (no bots, no spam)

2

Write your thesis

In natural language.

AI decomposes it into testable hypotheses with clear validation criteria.

3

AI scores weekly

Automated pipeline fetches news, macro & on-chain data, feeds LLM, publishes objective scores.

4

Community dashboard

Stack: Next.js · World ID · Chainlink CRE · ENS · Claude API · EVM-compatible

D+30 Delivery Plan

What will concretely exist in 30 days

Week 1

Core infrastructure

Auth (World ID) + thesis input UI + LLM parsing.

User can sign in, write thesis, see hypotheses.

Week 2

Scoring engine

Automated weekly pipeline: fetch news + on-chain data -> LLM scoring -> scores published on testnet.

Week 3

Community layer

Anonymous conviction aggregation. Dashboard showing community thesis health.

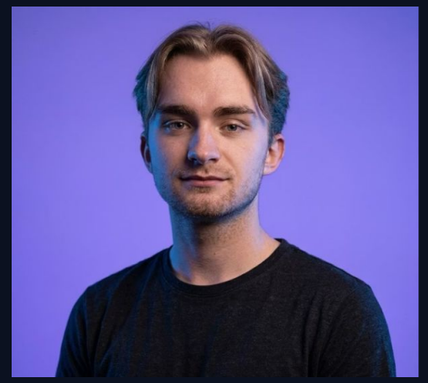
Sybil-resistant via World ID.

Week 4

Polish + deploy

At D+30: fully functional testnet app where any holder can write a thesis, get weekly AI scores, and see community conviction.

The Team



Infrastructure

Cloud architecture, DevOps, backend systems. Ensures the scoring pipeline runs reliably.

Development

Full-stack TypeScript/Next.js. Smart contract integration, API development, LLM pipeline.

Development

LLM/AI Agent/RAG/NLP developer. Building autonomous agents, RAG systems, and scalable AI pipelines.

Marketing & Pitch

Product storytelling, user research, community building. Drives go-to-market and pitch strategy.

Why 50Partners Web3?

Consumer-first Web3 product

50Partners supports bold consumer crypto. HoldLine targets 420M+ holders with a product that makes Web3 invisible

Founder energy + clear execution

We pitch a 30-day plan with weekly milestones. 4 complementary profiles.

Ecosystem growth engine

Every holder using HoldLine interacts with World ID, ENS, on-chain data — without knowing it.

Aligned with the portfolio

HoldLine is the psychological complement: they manage money, we manage conviction.

HOLD / LINE

Invest with conviction. Not with emotion.

The problem is real. The market is massive. Nobody builds for it.

We do. In 30 days.

50Partners Web3 | Kryptosphere Pitchathon | April 2026
